Subject: Microsoft Settlement

To Honorable Judge Kollar-Kotelly,

As a citizen of the United States, and a worker in the computer software industry for over 20 years, I would like to provide you with my comments on the Federal governments proposed settlement with Microsoft. Please, please, call upon God to provide you the wisdom and the courage to arrive at a moral and just decision in this case. With this prayer, I am sure you will not go wrong. In addition, I must tell you my view: it is plainly obvious to anyone that Microsoft is a monopoly, has abused this position to the detriment of the entire world and especially to it's competitors, that the current remedy proposed by Microsoft and the Federal representatives is woefully inadequate, and that since Microsoft has been given much, much must be expected from it. Please consider these comments in your deliberations. God speed.

George B. Smith
